RE: Letter of Concern, License No. 2639, Case No. 3189

Dear Dr. Tomlinson,

The Board of Osteopathic Examiners in Medicine and Surgery the Board met in an investigative hearing to consider your complaint No. 3189. The Board also reviewed your judicial review appeal. This complaint alleged, in part, that you violated A.R.S. § 32-1854 (6) and (40) involving patient P.M.'s medical records, T. B. tests and use of medications for multiple diagnoses.

Based on the information presented, counsels' recommendation for resolving this matter, and the fact that you have already completed an additional 40 hours of continuing medical education, the Board determined there was insufficient evidence to conclude that your conduct constituted unprofessional conduct or supported direct action against your license and voted to issue you this advisory LETTER OF CONCERN as to complaint number 3189. The Board was concerned with your medical records and use of medications for multiple diagnoses.

A Letter of Concern is a non-disciplinary action that remains part of the public record of your license for five years from the date of issuance. During those years it will be provided in response to requests for copies of your license file or verifications of license status, including being posted on the Board's website. It also may be cited in future actions against your license. Because it is not a disciplinary action, it is not reported to the National Practitioner Data Base.

Respectfully,

  
Jack Confer  
Executive Director
